Václav co-founded Y Soft in 2000 in Brno, Czech Republic, with the vision of creating a global organization that operates without borders.

Václav Muchna co-founded Y Soft in 2000 in Brno, Czech Republic, with the vision of creating a global organization that operates without borders.

In his mid-teens, Václav started the path toward his professional career by exploring software development, network administration and learning the value of a customer-centric approach to business. During his early professional years, Václav and a small group of partners embarked on many projects ultimately finding success with what is today YSoft SafeQ.

Václav has led Y Soft's international growth by establishing subsidiaries in Japan, Singapore, USA, Israel, Emirates and many more. Václav has also established Y Soft Ventures, the venture arm of Y Soft, providing promising startups in Central Europe the capital, resources and expertise needed to accelerate their path to global markets. While focused on growing the business and exceeding customer's needs, Václav also invests in technology, people and cultivating an active company culture.
